INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 28025	FOR FURTHER see Form PCT/ISA/220 ACTION as well as, where applicable, item 5 below.					
International application No. PCT/IL04/00563	International filing date (day/month/year) 24 June 2004 (24.06.2004)					
Applicant HAITIN ET AL.						
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of						
5. With regard to the abstract, the text is approved as subn the text has been established may, within one month from	nitted by the applicant. d, according to Rule 38.2(b), by this Authority m the date of mailing of this international searce	y as it appears in Box No. IV. The applicant ch report, submit comments to this Authority.				
as suggested by the as selected by this as selected by this	e published with the abstract is Figure No. 2 e applicant. Authority, because the applicant failed to sugge Authority, because this figure better character published with the abstract.

International application No.

PCT/IL04/00563

Box IV TEXT OF THE ABSTRACT (Continuation of Item 5 of the first sheet)

The abstract is too long (PCT Rule 8.1(b)). The abstract must be less than 150 words, or 200 words when no figure is to be published.

NEW ABSTRACT

A gating system for controlling a flowable material through a passageway having an inlet and an outlet, the gating system includes: an inlet blade assembly between the passageway inlet and passageway outlet, the inlet blade assembly including an inlet blade and a drive for moving the inlet blade to open and closed positions with respect to the passageway; an outlet blade assembly between the inlet blade assembly and the passageway outlet, the outlet blade assembly including an outlet blade and a drive for moving the outlet blade to open and closed positions with respect to the passageway; and a control system that drives for moving the inlet blade to its closed position before moving the outlet blade to its closed position with respect to the passageway, and moves the outlet blade to its open position before moving the inlet blade to its open position.

Form PCT/ISA/210 (continuation of first sheet(3)) (January 2004)
